

Mr. Ali Hamad Al –Mesaifri, Chief Human Resources and General Services

Qatar International Islamic Banks' (QIIB) pillars of trust, family and commitment along with its family-friendly approach towards its customers reflects in its partnership with KidzMondo Doha – which is an international edutainment concept for children and families. As the banking world is constantly changing, we want to educate young generations about the fundamental functions of a bank, to help them assimilate future changes easily.

We have worked very closely with KidzMondo Doha in order to understand their concept and help in imparting banking knowledge to the children who visit the facility. QIIB is also delighted that it shares common values with KidzMondo such as, being a modern facility with traditional values, commitment to people, teamwork, honesty and personal development. Being a propagator of Qatar National Vision 2030 makes KidzMondo an even more attractive and necessary association for us to help in the socio-economic development of Qatar.

We expect a long term successful partnership with KidzMondo Doha and hope to consistently grow and evolve with them in the coming years.
